

MINI-EXCAVATOR TRACKS

EXCEPTIONAL SERVICE LIFE WITH SUPERIOR RESISTANCE TO DAMAGE AND CATASTROPHIC FAILURES

MINI-EXCAVATORS

ENGINEERED TREAD PATTERNS

OVERALL LOCS GAUGE BY SURFACE TO OBTAIN THE LOWEST OPERATING COST SOLUTION ON THE MARKET

BEST FOR: Heavy Duty Applications requiring exceptional durability

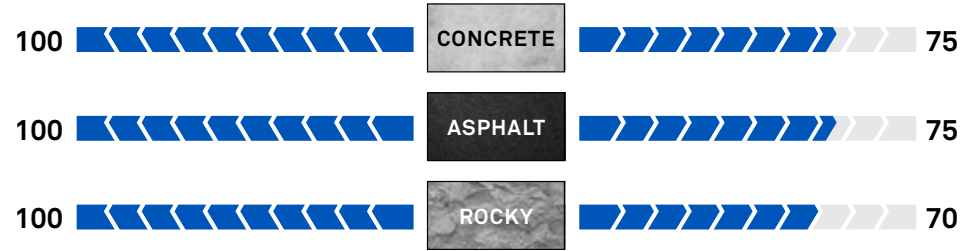

MEX HXD

SURFACE TYPE

MEX SD

BEST FOR: Applications requiring traction in soft surfaces such as clay or mud

HARD SURFACE

MIXED SURFACE

SOFT SURFACE

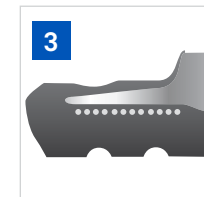

Patented 3S internal metal core

- Prevents detracking
- Minimizes vibrations
- Improves ride quality

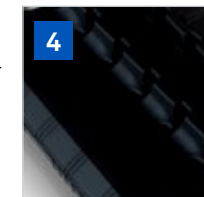

Enhanced high-tensile, rubber-sealed steel cables

- Cable corrosion protection
- Strengthens carcass

Curbshield technology with reinforced carcass edge

- Fortifies carcass protection
- Impedes catastrophic edge cuts
- Reduces internal components wear exposure

Premium rubber compound and extra thick carcass

- Impact and damage resistance
- Extends service life

Self cleaning tread design

- Promotes lug-void cleanout for maximum traction
- More traction in reverse driving

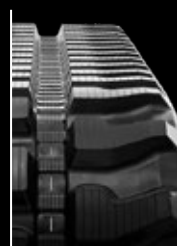

Optimized sprocket holes

- Reduces peak load on track and undercarriage parts; allows for sand and debris to pass through with ease
